

NASTE Season 2016 – Race 10

May 22, 2016

Hammer Time Speedway, Portland, Oregon

An excellent field of twenty racers met at Terry and Dorothy Abbott's Hammer Time Speedway for the final round of the NASTE 2016 Championship.

The Hammer Time Speedway is a four lane Max Track for HO scale cars. Terry had prepared three sets of cars for us to race in the NASTE IROC style race format. Our first and actually most challenging task was to complete a set of two-minute heat races with a group on Thunderjet Pontiac GTOs. They ranged from mild to wild.

After all the racers struggled through the GTO races, Terry brought out the Isetta's to race. Small, a little tippy, challenging. Did we mention small? This was the second appearance for the Isetta's and they are quickly becoming a crowd favorite despite the driving challenge.

After the dust from the last Isetta had settled out came the dirt track style Willys. These cars are the best handling and fastest of the cars Terry prepared. And all the racers stepped up their game turning in quicker lap times with the Willys. When it was all said and done Terry and Richard Phillis (of The Fray in Ferndale fame) tied for first place in the Expert Division followed by Bill Bostic and Bryan Trachsel. In the Novice Division Dana Denton took the win with Al Christensen second and Dorothy Abbott – The Hammer – third.

It was a great race and we would like to thank Dorothy for all the delicious food as well as Terry for the fun track and cars to race!
