

NASTE Season 2014 – Race #15

April 12, 2014

Jacquelin Park Speedway, Hillsboro, Oregon

Jacquelin Park was the setting for the 15th NASTE race of the 2014 season and the third Enduro. And this time Monte had all the equipment set up and running perfectly from power control to break-out timing, all systems were go.

To add to the veritable excitement the cars of the night were SCX Digital NASCARs with magnets. The idea is that cars with magnets would make driving easier for all levels of competitor, the added upside was that I think we only had to “fix” one guide bade that popped loose rather than one every five minutes. Competition becomes so fierce that halfway through the final heat both the Hammer and Clubber teams were in a tie.

But finally after two frantic hours of competition TEAM HAMMER pulled out the win with TEAM CLUBBER holding second with June and the Three Amigos taking the final spot on the podium.

Thanks to all for coming out, and thanks to Dorothy for an exquisite selection of desert options. I think I tried them all.
