

## NASTE Season 2014 – Race #2

September 21, 2013

Autumn Hills, Milwaukie, Oregon

### **A Triple F Night**

A fantabulous night of racing that had it all:

Fantastic racing- check.

Fabulous franks- check.

Fickle Fiats of Fate- check.

The evening started off with a few surprises in the form of old friends, three to be exact. It was great to see Frank, Randy and Tim back at a slot car race. They certainly are welcome anytime we race. After getting reacquainted and some track time it was announced it was time for dinner and what a feast it was. The theme was Oktoberfest and it lived up to the billing with two kinds of sausage, German coleslaw, potato salad, sauerkraut, pretzels and strudel. The only thing missing was Oompa music and leder hosen. Thank you Kelly!

After everyone was done getting their fill it was time to go racing and the Fickle Fiats were brought out from their hiding spot much to everyone's delight. Or was that dread? First up was the NASTE Amateur Group. Once again the Fiats proved to be tricky runners and somewhat unpredictable. Russell Flood lead the way with 24.3 laps followed by his brother Russell with 23.4 and Victoria Saager with 22.6. Next up was the Pro group (ha!) and in the early going the Fiats were proving to be more fickle than usual. A

slightly loose power supply wire proved to be the culprit but the later runners definitely had the better go of it. Leading the pack was AJ Locati with 25.2 laps with Randy Stumman in second place with 24.5 laps and a tie for third between Monte Saager and Terry Abbott with 24.3 each.

Ferrari and Jaguar have had some epic battles over the years and Saturday night was no different with a classic Ferrari 250 GTO battling a Jaguar D Type on the tight and twisty Autumn Hills track. In the amateur group Russell Flood totaled 25.2 laps with Fearless Frank and June Petrequin 24.1 and 24.0 each. It also left Tyler trying to explain how he got beat by his mom. The Pro group saw some very close racing action top to bottom with AJ Locati living up to his nickname “the Speedster” leading the way with 30.4 laps. Second belonged to Monte Saager with 29.4 followed closely by Rico Locati with 29.2 laps.
