NASTE 2016 - Race 2

Penguin Point

The second race of the NASTE 2016 season was held at Monte & Victoria's Penguin Point in Hillsboro. Monte had prepared two classes of cars for us to race in the usual NASTE IROC format, some very quick and twitchy Revell sports cars, and a set of three fast Slot.it Can Am style cars.

In the new NASTE racing format the Novices were first on the track. The sports cars proved to be quite challenging even at 9.5 volts. The Slot.it cars were the obvious fun favorite. After the Novice Division completed their races the Experts took the track. The reactions to the cars were the same, sports cars very challenging, Slot.it's very quick. At the end of it all the results for the Novice's showed Victoria Saager as the overall winner, followed by Dorothy Abbott in second and Todd Flood in third. For the Expert Division Monte Saager took the win, with Bill Bostic just two tenths of a lap back in second with Bryan Trachsel finishing third.

After the NASTE IROC racing the first race of the NASTE Trans Am Cup was held. Rumors of superior handling characteristics had many racers moving their car's traction magnet to the rear most mounting position. Well for Penguin Point this did not prove to be the hot setup! During practice some racers got smart and repositioned their traction magnet forward, some of us were not so smart! In any event the race was exciting to say the least! There were some totally spectacular get offs resulting in high speed front straight head on crashes! Parts were lost as well as positions! In the end, surviving the mayhem was Rico Locati in first followed by Monte Saager in second, just ahead of AJ Locati in third. Some of us just survived!

Thanks to Monte & Victoria for hosting another spectacular event and feeding us all! And thank you to all the racers who brought along food and snacks!
