

## NASTE Season 2015 – Race #8

January 17, 2015

Jacquelin Park, Hillsboro, Oregon

A new track, a new challenge, and another exciting evening of racing! As you've probably all heard by now Monte and Victoria replaced their SCX Digital track with a new Carrera Digital track and it was a hit.

The new track is smooth as silk and the layout easy enough that after a few minutes most were driving like experts. The Carrera Can Am cars Monte had prepared by removing the magnets and adding Paul Gage tires performed flawlessly, the system operated without a hitch. The drivers? Well, it is a NASTE event after all.

Once the sixteen racers in attendance had some practice time, we let the ladies – and Thomas – divide up the racers into four teams and it was Enduro time. During the next two hours teams raced lap after furious lap while taking time to come in for the occasional pit stop and refuel. Ok, they were a little more than occasional... We'll work on that. Regardless, by the conclusion the margin between the top three teams was a mere four laps for an amazingly close finish!

Let's not forget the food. Plenty of it for anyone with time to eat. There was pizza, vegetarian pizza, chicken, and assorted snacks, as well as Dorothy's famous candies on hand.

By the end of the evening smiles were out everywhere and all seemed to have had a pretty good time. And that's about all you can hope for.

Here are the final results:
