

## NASTE Season 2018 – The Season Continues

April 3, 2018

The NASTE IROC Drivers Championship for 2018 continues on with rounds 3 and 4.

Round three was held on the second Saturday of February in Hillsboro at Monte and Victoria's Jacquelin Park Speedway. The 'Jaq' is a Carrera Digital track system that requires drivers to use improved techniques in driving since there will always be cars in your lane. Digital racing allows for multiple cars in the same lane and the competition always gets, well, a little silly. To make sure that drivers had to make pit stops part of their strategy, heats were set for 10 minutes. Taking top honors was Terry Abbott, followed closely by Monte Saager with an Fritz taking third.

Round four returned us to Al's Rippin' Ridin' raceway in Portland. In the opening round featuring once again, Slot.it Group C cars Monte took the field to task followed by Terry with our host Al in third. For the second set Al again brought out the wumps. Everyone enjoys the wumps! And at the conclusion it was the Hillsboro Hot Shot again followed closely by Terry with Tracy Flood taking third.

The next event is scheduled for the HO track at HammerTime Speedway in Portland on April 14<sup>th</sup>. Come join us.

*The NASTE IROC race series welcomes newcomers and encourages new slot car enthusiasts to get involved. These entry level races help beginners learn about slot car racing, with minimal investment. It is also a forum for those who just enjoy driving slot cars and hanging out with friends around a common hobby. NASTE IROC races are family friendly. Kids who can race, get to race. The NASTE IROC Driver's Championship also provides an opportunity for experienced slot car drivers to demonstrate their driving expertise on a level playing field. Drivers compete using host-provided cars and controllers. The winning Division 1 driver receives the NASTE Driver's Cup at the annual Halloween race.*

Here are the final results:
