

Dear HO Enthusiast,

This is what HO racers in the Seattle area have been waiting for - the return of an organized HO racing program. After an absence of a few years, big-time HO racing is back. The only serious HO racing going on in the Pacific Northwest is taking place at Speedway & Hobby II on their new Puma track. If you have never driven on one of these tracks you're in for quite a treat. The running surface is super smooth and, with less magnetic "suck", you have to "drive" your car on this track (something new to racers running today's cars on rail tracks).

We've enclosed a flyer for the upcoming race on Saturday, March 15th as we expect it to be the best race seen in the Pacific Northwest for years. Racers will be coming from California, Nevada, Canada, and of course around the state of Washington. If you're interested in HO racing you won't want to miss this race. Trophies will be awarded to each class and merchandise will be supplied by BSRT Products, Scale Auto, Tyco, and Speedway & Hobby Too. This race will also be the start of a points series with results being published in "The Hoser News."

For your information, we race on the Puma track the third Saturday of every month and we'll be starting a racing program soon on the West Seattle Speedway track. Stay tuned for details. If you would like to be placed on the HO mailing list, just leave your name and address at either Shop. We'll see you there.

Sincerely,

Gary Beedle
